DWA_04.3 Knowledge Check_DWA4

---

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

Group all your const and then group all your lets.

This is good practice for readable code as well as when you want to redeclare a variable you have the grouping of it.

Comparison Operators & Equality

[15.1](#) Use === and !== over == and !=. eslint: eqeqeq

Control Statements

Assist with maintaining the complexity of the code and shorten it to the length needed for readability

Comments

Reminds you what the given function or action is taking place or was a thought at the time of creation.

---

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

Hoisting - what is the purpose? Does it only work when you declare it to be true.

Blocks - seems as if everything should just maintain in a straight line??

_____
